## **Advice on the NHS website**

### **'A pharmacist can help with threadworms**

You can buy medicine for threadworms from pharmacies. This is usually a chewable tablet or liquid you swallow.

Treat everyone in your household, even if they don't have symptoms.

Tell the pharmacist if you need to treat a child under 2, or if you're pregnant or breastfeeding.

Treatment might not be suitable and you may need to speak to a GP.

### **Things you should do at home**

Medicine kills the threadworms, but it doesn't kill the eggs. Eggs can live for up to 2 weeks outside the body.

There are things you can do to stop becoming infected again.

## **DO**

- wash hands and scrub under fingernails – particularly before eating, after using the toilet or changing nappies
- encourage children to wash hands regularly
- bathe or shower every morning
- rinse toothbrushes before using them
- keep fingernails short
- wash sleepwear, sheets, towels and soft toys (at normal temperature)
- disinfect kitchen and bathroom surfaces
- vacuum and dust with a damp cloth
- make sure children wear underwear at night – change it in the morning
